Smart Homes.

Affordable for All

At **IOTO**, we believe that high-end technology must be affordable for all. With our flagship offering, **IOTO Smart Home** we aim to make this dream a reality. The smart home comes with features that let you add smart capability to your home appliances without replacing any of their existing set-up, at the same time adding an extra layer of security to your home.

Equipped with an app that lets you control your smart home from anywhere in the world, **IOTO Smart home** truly is a stepping stone for anyone who wants to savor the experience of living in the future.

Features

Control from Anywhere

Control all appliances in your home from anywhere in the world.

Comfort and Convenience

Switch on/off appliances anytime from anywhere. No more worries about hassles at home.

Tighter Security

Monitor your home on the go. Set virtual locks on every room that'll smartly notify about any intrusion.

Live Power Tracking

Monitor hourly and daily power consumption at home in real time to help save more power.

Timing Set-up for all Devices

Set timers on any device, from light bulbs to water pumps.

Lighting Options Tailor made for you

Set custom light settings than turn on with a single tap to suit different moods- like movie night, party scene etc.

Smart Entertainment Control

Control all IR remotes with just the smartphone. Give a smart makeover to your DTH TV with new capabilities.

A Mobile App for the Beloved Master

Have complete control over the smart home with your phone. Keep an eye on your home from anywhere in the world.

The Voice Assistant

Your home's new best friend: With Amazon echo or Google assistant, use your voice as a remote to control all your appliances.

More Intelligence to your Appliances

Let your appliances customize their actions for you, without you having to play with the remotes all the time.

Mobile **Application**

Seamless User Experience

The app windows easily switches between home, switches and remote tabs to enable an effortless user experience.

Power Tracking Tab

The power tracking tab on the home dashboards displays your hourly and daily power consumption in real time.

Set Schedules & Routines

Set your appliances to power on/off at preset timings, create routines for a set of appliances so they can operate in sync without manual operation.

Lock Room Capability

This feature lets the user lock any room in the house via the app, so that he'll be notified of any intrusion immediately.

Option to share home access

Share your smart home app access with all other members of your home

Scenes

Customize your appliances to create theme based scenes for you whenever you want them to. Ex: evening scene, birthday scene etc.

Workflows

Let your appliances make intelligent decisions based on their surroundings. Ex: Your AC automatically switches on when the room temperature reaches 30 degree Celsius.

Create auto-turn off timers

Set timers on your appliances so they only work for the required duration.

Remotes

Use your app as a substitute remote for all your physical IR remotes. Create custom remotes and default remotes

Inapp Entertainment Guide

Access your TV guide inside your app. Set favorites, reminders, access streaming links on your favorite channels and programs.

Voice Integration

Control your smart home with even greater ease. Use your **Google Assistant** or **Amazon Echo** product to operate your appliances with just your voice!

SWITCHES

The **IOTO** Switch comes in 2 variations - 3P switch 4P switch. Every switch contains a fan dimmer control along with normal switch controls. It is packed with an attached sensor strip. This switch allows you to control all common home appliances via the **IOTO** Smart Home app. It also contains a power measurement circuit for displaying live power consumption data of connected appliances in real time.

Features

- Easy to install - can be finished in less than 15 minutes.
- In built surge protector to protect your appliances from both high and low voltages.
- Retrofit module - No need to modify the existing wiring set-up. The Secumetron switch can be installed keeping the existing switches and wiring intact (No modification needed for two way switching also).
- It works perfectly with manual switching also.
- Comes with built-in dimmer for fans and dimmable LEDs. They can be used just like regular dimmers.
- Integrated with Google Assistant and Amazon Alexa to provide voice control over appliances.
- Can communicate over Wi-Fi and works with/ without internet.

Tube Lights

Bulbs

Sockets

Fans

6A current rating.
I/P voltage rating: 230V /50 Hz.

SENSORS & SENSOR STRIP

The sensor strip comes as a package with the **IOTO** switch. It is to be attached to the switch during set-up. It has an inbuilt temperature sensor and an IR Blaster along with 2 USB ports to hold two additional sensors. **IOTO** sensor catalog includes commonly used sensors such as gas, temperature, motion, light among many others.

Features

- No need of separate purchase. It is shipped with the **IOTO** switch by default.
- Appliances can take appropriate decisions based on values obtained from sensors like change temperature, check for intruder etc.
- All IR remote controlled appliances like AC, Set-top Box, TV etc.. can be controlled via the **IOTO** app using the switch and sensor strip arrangement.

SMART REMOTE

IOTO Red is a universal portable remote which can act as a substitute for all IR remote controlled appliances. It is fitted with four IR Blasters which can cover 360 degree radius. **IOTO** Red can be connected to any USB power outlet (mobile chargers) and can be operated easily via Wi-Fi. It can be placed anywhere in the room to control appliances.

Features

- Ultra-portable, fits right in your pocket.
- The IR Blasters cover all appliances within 15m radius.
- Easy configuration – takes less than a minute.
- Compatible with almost all electronic brands in the world.
- Integrated with Google Assistant and Amazon Alexa to provide voice control over appliances.
- Can communicate over Wi-Fi and works with/without internet.

Appliances you can control

Set-Top Box

Television

AC

Home Theatre

Projector

- The extra-wide delay time adjustment: about 10 seconds - 7 minutes adjustable.
- Adjustable Ambient Light 3-2000.
- 360 degree detection.
- Detecting distance of up to 7M.
- Motion Detection Speed 0.6-1 m/s.

Operating Volt: AC 220-250V
Load power Up to 300/1200W Max

SMART MCB

Smart circuit breaker can be used to transform the ordinary household wiring into a smart system with automation. Smart MCBs protect your home from voltage fluctuations and any short circuiting. The time setting can be done through a smart phone instead of manual operation.

Features

- Control remotely from anywhere anytime.
- Schedule ON/OFF.
- Voice control with Google assistant and Alexa.
- Overload and short circuit protection.
- Over voltage and under voltage protection.
- Impulse withstand voltage 6000V.
- Less phase protection.

2P Single phase MCB - Rated 63A max
4P 3 phase MCB - Rated 40A, 60A and 100A

SMART SWITCHES

Switch on/off all your appliances remotely with NEXA smart switches. Avail all automation features in the **IOTO** Home app such as schedules, routines, timers, and scenes. Dim your lights. Change the fan speed. Do all of this from any where in the world. Control all of them using voice with Google Assistant and Amazon Alexa.

Available in 4 variants- 1/2/3 switch controllers as well as switch & fan controller (1+1) package. Choose the device that suits your needs the most!

1 SWITCH

2 SWITCH

3 SWITCH

1+1 SWITCH

SMART HEAVY DUTY MODULES

Control your heavy-duty appliances with your smartphone using NEXA's Heavy duty module the heavy duty controller, rated at 16 A. Use the NEXA heavy duty controller inside your switchboard to smartly control heavy duty appliances like AC's and Geysers. It comes with an inbuilt surge protector for electrical protection.

Avail all the features in the **IOTO** app with this device. Turn on and off your heavy appliances. Create auto-turn off timers for them to avoid any power wastage. Automate their working by creating schedules and routines on the app.

FAN REGULATOR

NEXA fan regulator is a Wi-Fi controlled fan regulator that can be fitted into any switchboard. In addition to controlling the fan manually from the switchboard, you can also control the fan (i.e., switch it on/off, change fan speed) using the **IOTO** mobile app. With the NEXA regulator there'll not be any more hissing or buzzing sounds from the fan. Set it up with any fan switch in your home, be it with 1 or 2 way switch. You can now change the fan speed from any where in the room. (Supports up to 150W rated fans).
